About the Series
The Roadway Safety Institute (RSI) at the University of Minnesota and the Midwest Transportation Center (MTC) at Iowa State University invite you to participate in a joint webinar series that highlights innovative transportation research. This collaborative effort will share the impacts of research conducted through both of these Regional University Transportation Centers. You’ll hear from both researchers leading the work and practitioners implementing results in the field.

Webinars will be streamed live and recordings will also be available for later viewing on the RSI and MTC websites.

Dates
- **February 16, 2016**
  Evaluation of Safety Edge Benefits in Iowa
  *Dr. Shauna Hallmark, Director and Principal Investigator, InTrans at Iowa State University*
